HOW WE WORK....

...YOU HAVE OPTIONS

- Put us on your job posting list. We screen candidates and send them directly to you.
- Let us be your partner. When you hire our candidates, we are always there to help you with accommodation advice and guidance if you need it pre- and post-employment.
- Let us know which job boards you are on that specialize in recruiting qualified candidates with a disability. We will instruct our candidates to post their résumés and search for your jobs there.
- If we do not have a candidate to fill an opening, we can disseminate it throughout our network to see if other ENs might have candidates to refer.

“ Working again motivates me. It’s a new lease on life. ”

ABOUT AES

Ability360 Employment Services (AES) has a contract with the Social Security Administration (SSA) to provide employment services to their beneficiaries with disabilities who want to return to self-supporting work.

Over 650 organizations nationwide recruit, screen and advise Social Security Disability beneficiaries on how to search for jobs and keep them. Our candidates all have extensive work experience at all responsibility levels and in all industries.

Some might have worked for you in the past, and due to illness or injury, had to leave the workforce for some time. Now they are ready to return to work and want to do so.

Our job is to find these candidates, screen them, test their skills, assess their ability and motivation to work, and connect them to you to fill the jobs you need done.

“

Employers expect skilled and motivated candidates. By working with Employment Networks, you have access to 13 million of them.
