# When can I start using my paid sick time?

---

## When do I start accruing paid sick time?

All Personal Care Attendants will be accruing paid sick time on July 1, 2017.

## When can I start using my earned paid sick time?

It depends on your hire date.

If you were hired on/before June 30, 2017, you can use your sick time as soon as you accrue it.

If you were hired July 1, 2017 or later you will start accruing your paid sick time from your date of hire, but you will have to wait until you have been employed for 90 days before you can use it.

# How much earned paid sick time do I get each year?

---

It depends on how many hours you work – you will receive 1 hour of sick time for every 30 hours you work.

The max number of hours you can accrue or use during the year is 40:

- Once you have reached the 40 hour limit, you will not accrue any more sick time until January 1st each year.
- Once you have used 40 hours in a year, you will not be able to use any additional hours until the next calendar year.

# How will I know how much time I have available?

---

The amount of earned paid sick time you have available, the amount of sick time you have used to date, and total dollar amount of sick time paid to you will be available for you to view on your paystub, or attached to it.
